THE Wedding EXPERIENCE

MY PHILOSOPHY | I am sure that your mind is racing with all the things that need to be planned for your big day. It is all very exciting, but it can also be a little overwhelming! You are planning the day that you have been anticipating your whole life, and you only get one shot at it! My goal as a wedding photographer is to make this one aspect of the planning process simple. Your wedding day is an experience from beginning to end, and your photography is a huge part of that experience. Your photographer is one of the only vendors who is with you for the most intimate moments of your day. From getting into your dress to signing your marriage license, along with all the moments that you are away from your guests, your photographer is there. You should have a photographer who won't interfere with these moments but will be there to capture them. You should have a photographer who will listen to your every want and pay attention to every tiny detail. Not only do you deserve beautiful images, you also deserve an amazing photographic experience. My goal is to not only capture memories for my clients, it is to create an experience that they will never forget, all while serving them well and being an enhancement to their wedding day. I will work tirelessly and passionately from the beginning of the day to the end.

THE PROCESS | One way that I ensure my brides and grooms enjoy the BEST photographic experience possible is through forming a relationship with my couples. A bride and groom should connect with their photographer, trust their photographer, and be EXCITED about the whole process with them! After booking, I love getting to know my clients through an **ENGAGEMENT SESSION**. This helps them warm up to the camera so that they are ready to rock and roll on the wedding day! Another way that I connect with my couples is to follow them on social media. This allows me to get to know them (and vice versa) by giving me a sneak peek into their daily lives. I get to interact with them and become more of a friend instead of just a business relationship. You should have a photographer who will treat you as a friend and not just another customer or a collection of images for their portfolio. By the time the wedding day arrives, my clients feel more like friends and that creates a safe and relaxed environment for photography! Now that you know a little bit about my approach to the wedding day, you can continue reading to find more detailed information about **THE WEDDING EXPERIENCE!**

WHY INVEST?

Your first decision as an engaged couple is to set priorities for your wedding planning. You have to decide what you value most. Is it the dress? The food? The venue? As a bride AND photographer, I believe that couples should make their photography a top priority. After the big day is over, you will leave your reception with a spouse & your pictures.... that's it! All of that planning and preparation is over in a matter of hours! So if you're choosing to invest in high quality photography, those images deserve a classy, elegant home after the wedding. I offer high end, leather bound, layflat albums for my wedding clients. The images are printed directly onto the pages and the covers are wrapped with top grain leather. This is the perfect ending to The Wedding Experience and it's a keepsake that you will be showing your children and grandchildren one day!

THE WEDDING EXPERIENCE

DIGITAL FILES :

I deliver 75-100 final images per active hour of shooting. All images are edited and delivered through an online gallery with the exceptions of blinks, blurs, and duplicates. You will have the ability to download, share, and print your images as much as you want. A print release is also provided.

COVERAGE :

I am often asked if 8 hours is enough time to capture the full wedding story and the answer is yes! 8 hours is ideal. I will provide a sample timeline to show you what your day will look like. If you choose less than 8 hours, you will have to decide where to remove time. You can always add additional coverage time if you feel like you need it as we get closer to the big day and have a good idea of your timeline.

MY SHOOTING STYLE :

I love being both interactive and discreet throughout the wedding day. There will be parts of the wedding day when I will need to be in control in order to accomplish everything that needs to be done while staying on schedule, and there will also be moments when you shouldn't even know that I'm there (the ceremony, during dances and toasts, etc.) I do try to be as discreet as possible throughout the day.

BOOKING :

Once I have answered any questions you may have and you have decided that my Wedding Experience is exactly what you're looking for on your wedding day, the next step is a booking proposal. I will create an online proposal that will walk you through the package and when you are ready you can save your date by signing your proposal, followed by a contract, and making your partial payment. All of this can be done electronically, including your payment.

Thank You

I am so glad that you contacted me! I am honored to have made your list of potential wedding photographers. Enjoy this season of engagement and get excited about your BIG DAY because it's going to be fabulous! Plan and prepare, but always remember that at the end of the day you are marrying the love of your life and that's ALL that really matters. Congratulations on your engagement, and I look forward to hearing from you! Be sure to visit the [BLOG](#) to view my most recent weddings!

Love,

Julie
